## Woodlands

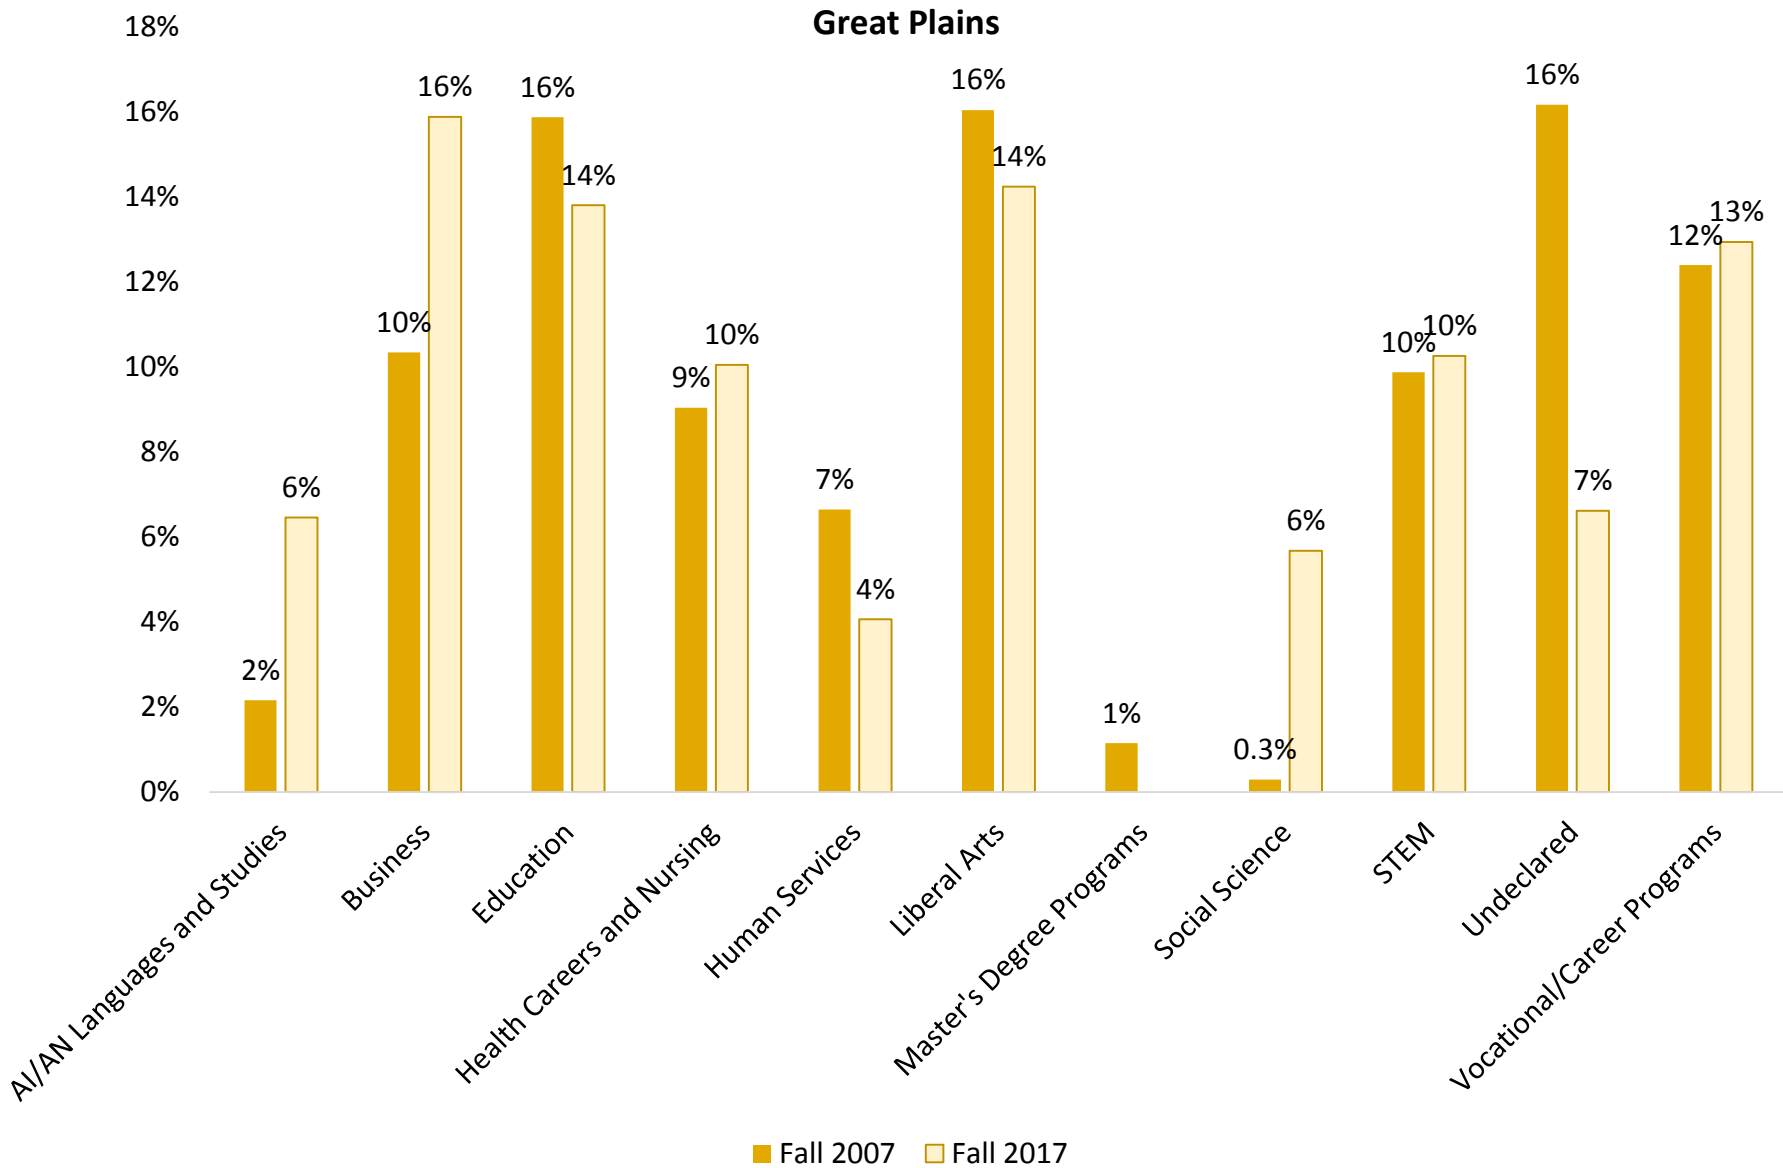

## Aggregate TCU Major Group Enrollment

Beginning with the 2015-16 data collection cycle, individual programs of study were reported rather than simply lumping all AI/AN language programs, vocational programs, master's degree programs, etc. together without individual differentiation. As such, master's degree programs began to be counted as part of their proper program categories rather than their own separate category in 2015-16. Master's degree programs represented 1% of the total enrollment in fall 2017.
